Projects

Spotify Clone (UI Replica)

- **Tech Stack** : HTML, CSS
- **Description** : Developed a responsive front-end clone of the Spotify web application using HTML and CSS. Focused on replicating the original design, layout, and aesthetics including the navigation bar, playlist section, album cards, and overall structure. Practiced key web design concepts like flexbox, grid layout, and modern CSS styling techniques to build a visually accurate replica.

Simon Say Game

- **Tech Stack** : HTML, CSS, JavaScript
- **Description** : Built a fully functional “Simon Says” memory game where the player must replicate an ever-increasing sequence of colored lights. Implemented game logic using JavaScript for random pattern generation, user input detection, real-time feedback, and win/loss conditions. Each color plays a unique sound to enhance gameplay interactivity.

Skills

Frontend : HTML , CSS and JavaScript

Backend : Django

Database : SQLite

Problem Solving : Data Structure and Algorithm

Other Skills : C++ , Python , Github

Education

Jawaharlal Institute of Technology , Borawan (Khargone) B.Tech – CSE (Bachelor of Technology with Computer Science and Engineering)	2023 – 2027 6.7 CGPA
Maa Narmada Academy , Dhamnod (Dhar) Higher Secondary School of Certificate (12 th)	2022 – 2023 73 Percent
Moyade Academy High School , Khalghat (Dhar) High School of Certificate (10 th)	2020 – 2021 77 Percent

Activity

Operation Head of College Coding Club (Code Nexus)
